I am a student at Ecole des Ponts ParisTech, fond of Computer Science, Web Development and Operational Research. I am seeking for a six-month internship starting in January 2020.

## EDUCATION

- Sept. 2017 – Present: **ECOLE DES PONTS PARISTECH, Engineering School, Paris**  
Applied Mathematics, Operational Research, Algorithmic, Statistic, Data Science, Stochastic Processes, Computer Science
- Sept. 2015 – Jun. 2017: **LYCEE DU PARC, Two-year Scientific Curriculum, Lyon**  
Mathematics, Physics, Industrial Engineering, Computer Science

## EXPERIENCES

- Jun. 2019 – Present: **AGILE WEB DEVELOPER, Theodo, Paris**  
At Theodo, I worked on an internal web application in the financial industry. The goal of the product was to divide by six the time of creation of an investment fund. In a team of five developers, I improved my skills in software development and learned how to apply SCRUM methodology in a project
- Feb. 2018 – Feb 2019: **INFORMATION SYSTEM MANAGER, Ponts Etudes Projets Association, Paris**  
As a member of the Junior Business of Ecole des Ponts ParisTech, I was in charge of proposing digital solutions to companies and recruiting students to implement them
- Jun. 2018 – Aug. 2018: **WEB DEVELOPER, Prepaya, Paris**  
Apart from my studies, I developed an intranet platform for a small e-learning school to help students and teachers to share documents

## PROJECTS

- Sept. 2018 – Oct. 2018: **TOPOLOGICAL PHASES OF MATTER, Ecole des Ponts ParisTech**  
As part of a team of five students, I studied the behavior of electrons in crystals and could link it to the Quantum Hall Effect
- Jan. 2018 – Mar. 2018: **AUTOMOBILE MOBILITY MODELING AND TRAFFIC ANALYSIS, Ecole des Ponts ParisTech**  
This project aimed at analyzing the impact of a road closure policy in Paris

## SKILLS

Computer Languages	Softwares	Frameworks	Languages
Python, Nodejs, Go, C++, PHP, R, HTML5, CSS3	Docker, Git, Excel	Django, Symfony, React, Flask, Jekyll	French: native language, English: C1, Spanish: B2

## INTERESTS

I like playing the piano and the guitar, skiing, hiking, and playing basketball with friends
